

Re-opening & COVID-19 Advisory

Updated 8.15.21

Our outdoor space re-opened to the public on June 19th, and our indoor theatre re-opened in August.

We took advantage of the closure to conduct much-needed repairs, upgrades and building maintenance, some of which is still being completed.

In order to keep our community as safe as possible, the following rules will be in effect until May 31, 2022. Our COVID protocol will always adhere to public health guidelines for San Francisco, and those for City-owned buildings specifically, at the time of any event, and may be more strict than required.

All Opera House employees are fully vaccinated. We have HEPA air cleaners in all public bathrooms.

- We have lowered our indoor capacity to 1/2 of the normal 300 to 150; that includes all Opera House and renter's event staff
- Masks are required indoors at all times and are highly recommended outdoors, except when eating or drinking
- Food and drink are only allowed outdoors
- Seating indoors is arranged to support social distancing
- Advance tickets required for most functions inside
- Events that take place primarily or fully outdoors are encouraged
